New Year Message From President & CEO (Summary)

Calsonic Kansei Corporation (President & CEO: Hiroshi Moriya; Headquarters: Kita-ku, Saitama-city) announced that a New Year message from President Moriya has been disseminated to all employees today. A summary of the message is given below.

Although it is the start of a new calendar year, for our company, this is the fourth quarter of fiscal 2015 where we make a final dash towards our goals. I hope to be able to share with everyone the joy of achieving our goals. Fiscal 2016, as the last year of our medium-term business plan "CK GX4 T10," is the time for us to weave together the results of all our efforts so far. Let's move forward enthusiastically, and occasionally carefully, as we work towards becoming a great company.

Besides being the last year of GX4 T10, 2016 is also a very important year to build the foundation for our company's sustainable growth into 2020 and 2025.

To achieve this, we will need the strength to make "Sustainable Efforts", the efforts to keep up our current performance, and to enhance each one's "Sensibility", the ability to find out the essence of things.

If all of us who work at Calsonic Kansei are able to make "Sustainable Efforts" and have "Sensibility," we should be able to soar into the future.
