Calsonic Kansei Corporation

Calsonic Kansei Mexicana opened CK Kids childcare center

On August 3rd, as part of the People Development Strategy to contribute to a sustainable society and employee motivation, Mike Turner (President and COO), Shogo Nakashita (SVP), and governor of Aguascalientes Martín Orozco Sandoval and his wife Yolanda Ramirez, led the opening ceremony of the CK Kids childcare center. This childcare center is a result of the alliance between Calsonic Kansei Mexicana and the Kiddie Care educational center, which specializes in newborn education, creating a childcare center exclusively for the children of the company's employees. In the first stage, the facilities can handle up to 100 children from four weeks to four years of age, and it is the first automotive industry childcare center in Aguascalientes, Mexico. Governor Orozco recognizes CK Kids as a superb educational center with a significant impact on society and gives his congratulations to Calsonic Kansei for its strong contribution to the community. This is Calsonic Kansei's first childcare center in the world.
