

## The Calsonic Kansei Next-Generation Scholarship for 2018 — Saitama Window to the World Scholarships —

Saitama, Japan – April 25, 2018 / Calsonic Kansei Corporation (President & CEO: Beda Bolzenius, Headquarters: Kita-ku, Saitama City) continues to support the development of globally competitive personnel by offering scholarships for overseas studies to students who will contribute to future innovation and monozukuri. Calsonic Kansei continues to cooperate with Saitama Prefecture through the Calsonic Kansei Next-Generation Scholarship established last year. The scholars are recruited by the Saitama International Association. Calsonic Kansei Corporation is a global supplier of automobile parts, and is celebrating its 80th anniversary this year.

The Calsonic Kansei Next-Generation Scholarship for 2018 offers the STEM Fields Course, and especially welcomes a student who is staying or has stayed in child care facilities, or who comes from a single parent household.

Calsonic Kansei continues to provide support to the student who qualified for a degree course last year.
